City of Douglas Launches New Public Engagement Website

Douglas, AZ (April 13, 2023) - The City of Douglas is pleased to announce the launch of its new public engagement website, Engage Douglas, designed to provide citizens with access to information on ongoing projects and opportunities to provide input.

Engage Douglas is part of the City's ongoing commitment to transparency and community involvement in the decision-making process. It provides a user-friendly platform for citizens to view information about current and upcoming projects, including project details and timelines.

In addition to project information, the website also includes sections for public input. Citizens can share their thoughts, ideas, and concerns to city officials. This section is a crucial tool for the City to understand the needs and preferences of its residents and make informed decisions that align with community values.

"We are excited to launch Engage Douglas and provide our citizens with a platform to stay informed and engaged in the projects that impact our community," said City Manager, Ana Urquijo. "The City of Douglas is committed to transparent and inclusive decision-making, and we believe this website will help us achieve that goal."

Engage Douglas is accessible to anyone with an internet connection and is designed to be mobile-friendly, allowing citizens to access information and provide feedback on-the-go. The City of Douglas encourages all residents to visit the website and stay informed about ongoing projects and provide their input.

For more information, please visit [Engage Douglas \(douglasaz.gov\)](http://EngageDouglas(douglasaz.gov)).
