Intellectual and social activities that stimulate creative thinking about the future. Dungeons & Dragons and such games encourage thinking about alternative futures in group settings. There needs to be more creativity in Douglas. Looking at what exists and seeing that change is possible with effort and vision.

More baseball/softball fields at 8th St Park. Stop spending taxpayer money on vacant buildings. When we have softball tournaments players must travel from 8th St Park to Airport park to play. Another softball/baseball field at 8th St would be safer and more convenient. Even just an infield and fencing would be a great improvement.

I suggest the City of Douglas invests in building a new sporting complex with baseball/softball fields. From children to seniors, the vast majority of our town plays either sport year round and enjoys going out there to play. There are not enough fields to adequately accommodate all the teams and people who are playing these sports. Especially now with the women's slow pitch softball league, they are using a field that they share with the little league softball league. Many players who are residents of the City go off and represent this town in tournaments all over the state. We need more fields to better serve the community.

Douglas has no open indoor basketball courts. The 8th st Park have one old court barely had lights. The 3rd st park has a court with one rim no net and the other side doesn't even have a rim. No open gyms available to anyone. With a big indoor facility comes many opportunities for other recreation activities. Volley ball, basketball, indoor soccer, dodgeball.. ect.
